 (Company No. 669287 - H)  
 (Incorporated in Malaysia)

**2. Changes in Accounting Policies (cont'd)**

**FRS 7: Financial Instruments: Disclosures**

Prior to the adoption of FRS 7, the disclosures for financial instruments were based on the requirements of the original FRS 132: Financial Instruments: Disclosures and Presentation. This standard requires disclosure on the nature and extent of risks arising from financial instrument which includes qualitative and quantitative disclosure. The Group applied this standard prospectively in accordance with the transitional provision. This standard only affects the form and content of the disclosure in the Group's financial statements.

**FRS 8: Operating Segments**

FRS 8 replaces FRS 114<sub>2004</sub> Segment Reporting and requires a "management approach", under which segment information is presented on the same basis as that used for internal reporting purposes that are regularly reviewed by the Group's chief operating decision maker. The Group presents its segment information based on its geographical segments, which is also the basis of presenting its internal management reports. The basis of measurement of operating results, segment assets and segment liabilities are the same as the basis of measurement for external reporting.

**Revised FRS 101 (2009) Presentation of Financial Statements**

The revised FRS 101 requires Statement of Changes in Equity includes only transaction with owners, and all non-owner changes (i.e. other comprehensive income) are presented in a separate statement. This standard also introduces Statement of Comprehensive Income which presents all items of income and expense recognised in profit or loss and all other items of income and expensed recognised directly in equity, either in one single statement or two linked statements. The Group has applied this standard retrospectively and elected to present in one single statement. The adoption of this standard only impacted the form and content of the presentation of the Group's financial statements.

**Annual Improvements to FRSs (2009) – FRS 117: Leases**

FRS 117 clarifies on the classification of leases of land and buildings. The resulting effect of this standard was the reclassification of leasehold land to property, plant and equipment or investment property rather than being separately classified under prepaid land lease payments on the condensed consolidated statement of financial position, as disclosed below. The change in accounting policy has been made retrospectively in accordance with the transitional provisions of the amendment. The reclassification does not have any impact on the financial performance and earning per share of the Group.

The following comparatives have been reclassified upon adoption of the amendments to FRS 117:

	<b>As Restated RM'000</b>	<b>As Previously Stated RM'000</b>
<b>Condensed Statement of Financial Position</b>		
<b>Non-current assets</b>		
Property and equipment	16,836	11,365

**FRS 139: Financial Instruments: Recognition and Measurement**

FRS 139 prescribes the principles for recognising, derecognising and measuring financial asset, financial liabilities, including all derivatives and certain embedded derivatives. The Group has applied this standard prospectively on 1 January 2010 in accordance with the transitional provision. The effects arising from the adoption of this standard has been accounted for by adjusting the opening balance of retained earnings as at 1 January 2010. The comparative figures have not been restated.

Prior to 1 January 2010, the Group classified its investment in quoted securities which were held for non-trading purposes as non-current quoted investments. Such investments were carried at cost less allowance for permanent diminution in value. Upon adoption of FRS 139, these investments were designated at 1 January 2010 as available-for-sale investments and accordingly are stated at their fair values as at that date at RM8,548,000. As at 1 January 2010, an impairment loss of RM3,025,000 was also recognised for available-for-sale investments as an adjustment to the opening balance of retained earnings.

The following are the effects arising from the changes in the accounting policies as at 1 January 2010 upon the first application of FRS 139:

	<b>As Previously Stated RM'000</b>	<b>Effect of FRS 139 RM'000</b>	<b>As Restated RM'000</b>
