Description	PILOT PROJECT "GREEN SOLAR-GENSET HYBRID SYSTEMS 6kWh" AT TURTLE ISLANDS PARK

Compugates wishes to inform that Compugates Sabah Sdn Bhd (CSSB), a 51% owned subsidiary of Compugates had today been notified by Sabah Parks that its Board of Trustees has given its approval-in - principle to CSSB for supply and installation of a 6kWh Green Solar Hybrid System in Pulau Gulisan, Turtle Island Park as a pilot project prior to other Sabah Parks sites for the introduction of green alternative energy for Sabah Parks. This pilot project will enable this delicate turtle sanctuary and hatchery to have a round the clock electricity supply as well as to reduce its carbon footprint in the environment.

Compugates will make the appropriate announcements should there be any further development on this matter.

Please refer to the Press Release attached for details.

This announcement is dated 16 November 2011.
