Subject	COMPUGATES HOLDINGS BERHAD (“Compugates” or “the Company”) Press Release : Handover of Green Solar Power System Using Eco-Friendly Rechargeable Green Batteries and Energy Saving Lamps for Batu Sapi Jetties
Contents	The Board of Directors of Compugates is pleased to announce that ETI Tech (M) Sdn Bhd (“ETI”) (Company No. 587980-M) in collaboration with Compugates Sabah Sdn Bhd (an associate company of Compugates) and Green Electric Sdn Bhd has on 27 March 2010 held a Handover Ceremony in conjunction of the successful completion of the installation of green solar power system using eco-friendly rechargeable batteries and energy saving lamps at Batu Sapi, Sandakan, Sabah which earmarked the replacement of conventional harmful lead acid batteries with lithium based battery being used in solar power application for piers and jetties in Malaysia. The introduction of the Green Battery is in line with the Government of Malaysia’s aspiration in bringing electricity to remote areas through eco-friendly renewable energy and means. The Board is of the opinion that the handover is in the best interest of the Compugates Group and will contribute positively to the revenue of the Compugates Group in 2010. None of the directors and/or major shareholders and/or persons connected with such directors and/or major shareholders have any interest, direct or indirect, in the transaction. This announcement is dated 29 March 2010.
